

# Software developer

July 2018

**Job Type** – Full time

**Remuneration** – £Competitive

**Location** – Fitzrovia, W1 offices

**Holidays** – 22 days per year

**Benefits** – Pension + interest free travel card loan + private healthcare

## The company

Westhill is an innovative, full-service creative agency with offices in Fitzrovia, Central London, and blue-chip clients such as BT and Toshiba.

Founded over 25 years ago Westhill has established itself as an indispensable extension of its clients' marketing teams – providing creative design and innovative thinking across digital and offline media in both B2B and B2C channels.

Learn more about our clients and the results we achieve for them [here](#)

## Why work for us

**Ambition** – We have a solid foundation to build on and bags of ambition. Our new management team aim to make us the creative agency of choice for both current and new clients

**Growth** – You'll be coming into a business which aims to grow, with exciting opportunities for you to develop your skills and experience

**People** – We all learn from the people around us, and we have some great individuals here, who love working as part of team.

**Fun** – We work in a fast-paced environment and are always up against deadlines. So it's important to take time regularly to stop and enjoy ourselves – whether that's celebrating success with clients or a pint in the pub with the team.

## The role

You'll write clear, efficient and high-quality code, working with our internal creative teams and partner development team, when required, to translate wireframes and designs into exceptional digital solutions.

In addition, you'll promote the appropriate technologies and platforms and implement quality software solutions to meet clients' needs.

You will be supporting account managers with proposals and scoping documents and will enjoy the challenge of responding to client queries or issues with crystal clear written and verbal communication.

Due to the varied nature of the role, no two days will be exactly the same and you will experience a fast-paced, multi-tasking atmosphere where the client comes first.

You will benefit from regular team and project meetings throughout the week as well as 1:1 updates with the Digital Project Lead who will be your manager.

## The Person

Do you like knowing that your work is making a real and measurable difference?

Are you comfortable with the hectic pace of multi-tasking across multiple clients?

If yes, we'd be interested in talking to you.

We want a talented and dynamic full-stack software developer to join the team. You'll have at least two years' experience, preferably within a similar agency environment.

We want someone who really cares about the client journey and final result, not just getting the job done. You'll have opinions and ideas you can passionately share with colleagues and clients, and, as a keen problem solver you'll be able to come up with creative solutions to meet our clients' needs.

You will need to have an outstanding eye for detail and the ability to prioritise ruthlessly to make sure key project deliverables are met, but also understand the bigger picture of the client's business.

We would like you to have solid experience of ASP.net (VB/C#) and other technical skills which include;

- Proven understanding of MVC
- Wide knowledge of SQL Queries, triggers, functions, stored procedures and T-SQL for data extraction and development – RDBMS (Preferably SQL Server 2005+)
- Experience of .net based CMS (preferably Umbraco, Sitefinity)
- Experience of industry-standard technologies such as JavaScript, XML, AJAX, CSS, JSON, HTML, HTML5/Canvas UX, UI, JQuery, CSS, XML/XSLT, LINQ
- Understanding of mobile technologies and trends aswell as design concepts, typography, and delivering beautiful projects.
- Understanding of IIS
- Good Understanding Web Accessibility Standards
- Working knowledge of Adobe Experience Manager would be a distinct advantage
- PHP experience not required, but would be beneficial

**We look forward to talking to you and Good Luck!**
